

# Mother's Day Card Craft Instructions

Supplies you will need

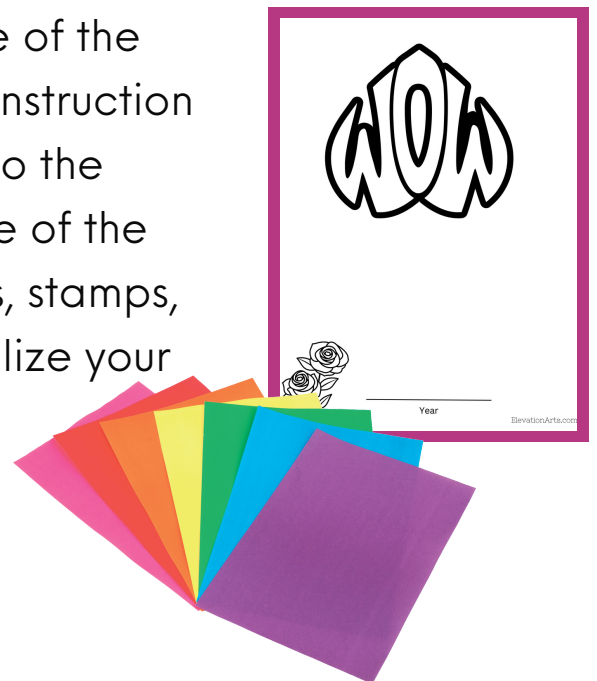

Optional

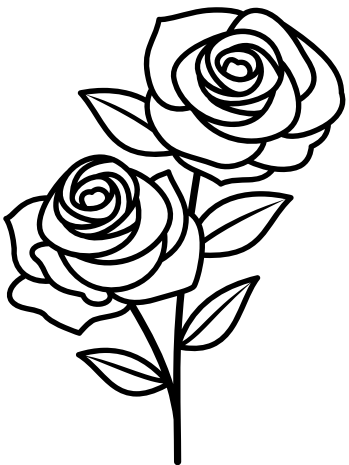

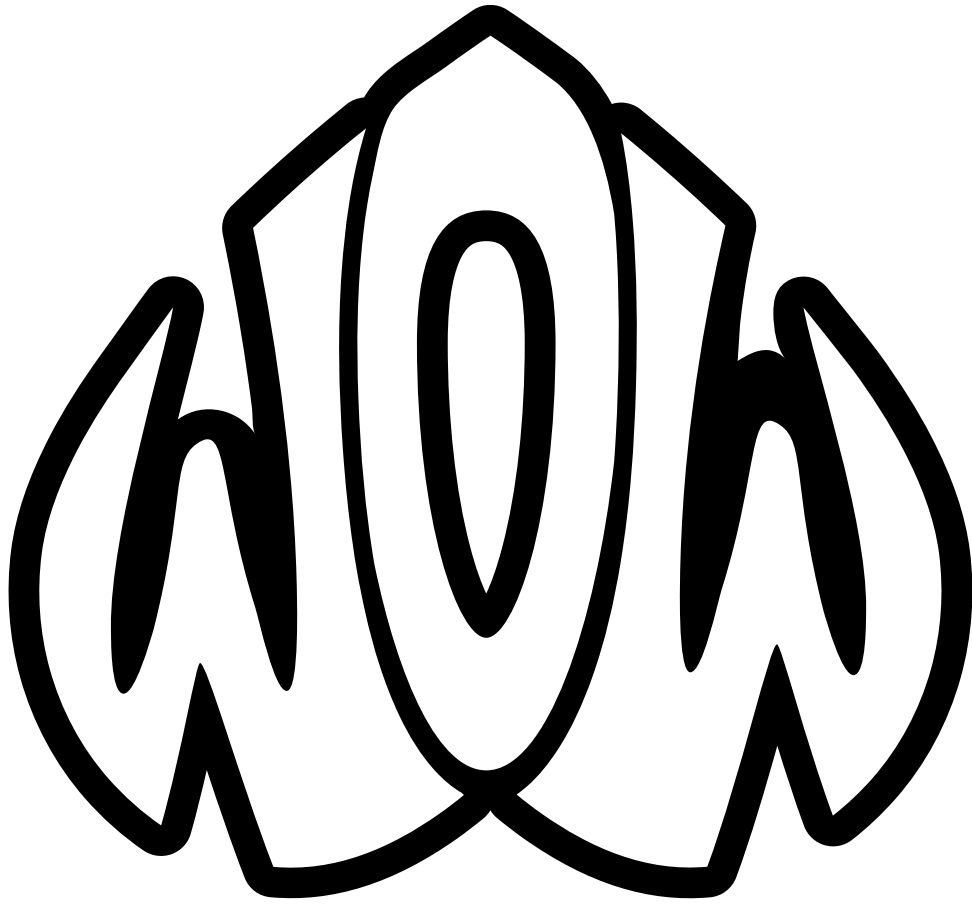

Print and color the card template pages that you will be using.

Instructions:

- Print out the pages for your card.
- Color and decorate the pages to your liking.
- Apply glue to the backs of the papers and press them together. (The outside of the card should show the image upside down, once it is folded in half, it will appear correctly.)
- Fold the paper in half horizontally so that the front of the card appears.

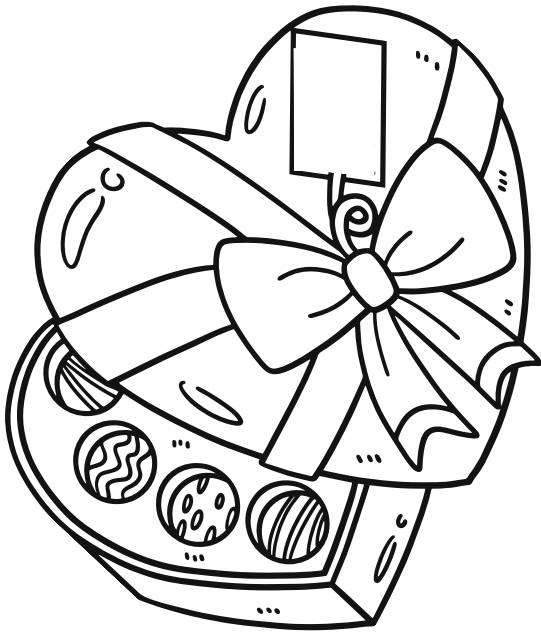

CUSTOMIZE: Instead of using the outside of the card print out, use a colorful piece of construction paper and paste the inside of the card to the construction paper. Decorate the outside of the card to your liking using markers, stickers, stamps, photos or anything else that will personalize your card.
